WELCOME BOOKLET
FOR STUDENTS

Fall 2026

TÉLÉCOM PARIS

Our school is part of **IMT** and a founding member of **Institut Polytechnique de Paris**, a world-class science and technology institute uniting six French Grandes Écoles (top-ranking institutions for higher education): École polytechnique, ENSTA Paris, ENPC, ENSAE Paris, Télécom Paris, École nationale des ponts et chaussées (ENPC), and Télécom SudParis. HEC is also a privileged partner of IP Paris. This internationally-oriented group develops cutting-edge scientific research and offers training programs with the highest standards of excellence for all degree levels. It also guarantees excellent employment opportunities for its graduates.

Patrick OLIVIER
President of Télécom Paris

Dear Students,

Télécom Paris, one of France's leading engineering schools in digital technologies, is consistently ranked among the country's top five engineering schools. It also enjoys strong international recognition, particularly in computer science, as reflected in the Times Higher Education World University Rankings and the QS World University Rankings.

As a member of Institut Mines-Télécom, France's leading public group of engineering and management schools, and a founding member of Institut Polytechnique de Paris, Télécom Paris educates engineers who are ready to innovate and create in a world where technology is everywhere.

Beyond the quality of our programmes and our academic excellence, what truly sets Télécom Paris apart is its human dimension. You will join a close-knit class within a supportive, dynamic and inclusive community that encourages both personal fulfilment and collective success.

Today's world requires new skills to address the major social and environmental challenges of tomorrow. Artificial intelligence, big data, machine learning, the Internet of Things (IoT), cloud computing, quantum computing, 5G and 6G mobile networks, blockchain and cybersecurity—and their applications across every industrial sector—are among the scientific and technological fields in which we educate our students.

Our curriculum is broad-based and offers a wealth of opportunities. Télécom Paris graduates enjoy outstanding career prospects across all sectors, both in France and internationally. Thanks to the School's strong connections with industry and its alumni network, you will have many opportunities throughout your studies to meet professionals and discover the wide range of careers open to you.

Your class will bring together students from more than 40 countries, and part of your studies will take place abroad. You will also benefit from numerous academic pathways and international opportunities tailored to your interests and aspirations, opening the door to new perspectives.

You will study in state-of-the-art facilities, including modern lecture halls, classrooms, laboratories and practical teaching spaces, all designed to provide an outstanding learning environment.

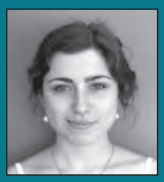

Outside the classroom, a vibrant and diverse student life awaits you. Thanks to the energy of our student associations and the many activities available on our new campus, you will have every opportunity to grow, engage and make the most of your experience.

We are delighted to welcome you to Télécom Paris, where your future begins in a living laboratory of innovation.

PRACTICAL
INFORMATION

We're here to help

Remember! You're not alone! If you are having any personal, study-related, or campus life difficulties contact Marie or Odile. *Consultations on Tuesday, Wednesday, and Thursday mornings.*
Schedule an appointment via email.

Marie MATHERAT
Psychologist
Office 0A256 / Phone: 01.75.31.42.49
psy.eleves@telecom-paris.fr

Odile FEUILLATRE
Psychologist
Office: 0A256 / Phone: 01.75.31.42.49
psy.eleves@telecom-paris.fr

Difficulties related to excessive consumption (alcohol, tobacco, cannabis, or substance abuse).
Consultations on the last Wednesday afternoon of each month. Schedule an appointment via email.

Baptiste MULLIEZ
Expert patient
Office: 0A252
addicto.eleves@telecom-paris.fr

Housing in Palaiseau

The Paris-Saclay campus provides students with a wide variety of housing opportunities in the immediate vicinity of Télécom Paris.

Tatiana BREVET
Campus and Student Life Officer
Office: 2A474 / Phone:
01.75.31.43.83
logement@telecom-paris.fr

DEAN OF STUDIES

The digital transformation is at work at all levels of society!

We want this transformation to be respectful of people and their environment.

IoT, virtual networks, the cloud, cybersecurity, and artificial intelligence are digital disciplines that are at the heart of the scientific and technological responses to the industrial challenges and new uses of a connected society. But how can we create solutions that take into account the major issues of the energy transition and social responsibility?

Télécom Paris, a highly rated French Grande École in the field of digital technology, invites you to engage with this issue as an engineer, decision-maker, researcher, or even specialist capable of envisioning, designing, and analyzing complex digital systems. You will reach your fullest potential as a highly educated and imaginative scientist, as well as an open-minded and conscientious professional ready to tackle the challenges of today.

Welcome to our campus! Here, you will develop your creativity, lay the groundwork for your scientific expertise, and refine your choices in an environment where students from more than 40 nationalities come together. So it's up to you to tap into your enthusiasm, your desire to learn and your openness to others to take full advantage of this exceptional and incredibly vibrant environment!

At the Dean of Studies, we are by your side to help you discover a unique profile.

On behalf of the entire team, I wish you an excellent academic year with us!

Bertrand David

Taking action and transforming schools to protect the environment.
Stand up for diversity:
• Gender equality • Social inclusion
• Disability & accessibility

Become an ambassador for Télécom Paris by attending the recruitment forums and job fairs. Promote the school for new applicants and through the Comète student organization.

STUDENT ASSOCIATIONS

MORE THAN 40 WAYS

TO GET INVOLVED

Passionate about sports, arts, or music?

Want to take an active role in campus life and the community?

The Student Union (BDE) is our school's hub for numerous associations where you can develop new talents to make a long-lasting impact. Can't find what you're looking for? Contact the Student Union to create a new club.

Meet the Team!

- Welcomes new students and facilitates integration into the school's academic and social life.
- Represents students at the school's management and administrative level.
- Organizes and coordinates networking with companies and students through events and sponsorships.
- Coordinates activities offered by the different clubs to ensure a rich student life.
- Organizes social events, trips abroad, sporting events, etc.

Email: bde@telecom-paris.fr

MEET THE ALUMNI
YOUR LIFELONG NETWORK

Join the Télécom Paris Alumni Community before your graduate

Connect today with over 21,000 alumni and start preparing for your professional future.

Building relationships with graduates while you study means more opportunities for internships, jobs, and career advice.

+ 21,000 alumni

Personalized mentoring

International career opportunities

Access resources for international mobility to help with your internships

Events and Networking

Afterwork meetups and speed networking with alumni, expert seminars, webinars, etc..

Let's get you connected!

Corine GARCIA
Managing Director

Joanna MORGADO
Chargée de Communication 360° & Évènementiel

The Cost to Connect

22€ - **valid for 2 years (1st & 2nd-year students)**

12€ - valid for 1 year (3rd-year students)

SUSTAINABLE DEVELOPMENT

An HQE building

Our new building has been designed for High Quality Environmental (HQE) classification. HQE is a voluntary approach to managing the impact on the environment generated by a building while providing its occupants with healthy and comfortable conditions throughout the life of the structure.

Recycling and waste management

Our campus sorts its waste and collects paper and cardboard separately, along with Waste from Electrical and Electronic Equipment (WEEE), general industrial waste, liquids, and hazardous materials. Removal and recycling or disposal are carried out in compliance with environmental protection standards.

To achieve this, the school has partnered with an ethical and socially responsible company that collects batteries, paper, and WEEE cartridges while creating sustainable local jobs for people with disabilities.

Finally, a composting area is available in the campus green spaces to recycle organic waste.

Committed to a sustainable meal service

Our self-service restaurants and cafeterias are committed to diversifying daily meals, in particular, by integrating a quality vegetarian offering and also to making progress in terms of local and organic sourcing of ingredients, reducing food waste, sorting and recovery of bio-waste, and the use of 100% biodegradable cleaning products.

The heating network

Our campus benefits from a heating network based on deep geothermal energy. The buildings are supplied with 60% renewable energy from the Albien geothermal aquifer at a depth of 700 metres. This solution emits three times less CO2 emissions than a traditional system and, on such a large scale, is a worldwide first. Our Paris-Saclay urban campus was recently awarded the Positive Energy Territory for Green Growth (Territoire à énergie positive pour la croissance verte) label and is a truly remarkable technological showcase.

A responsible digital school

The school has implemented digital processes, shared document servers, centralized printing, and the use of recycled paper, and it is committed to reducing plastic use.

Above all, the school provides a full range of remote learning tools, video conferencing solutions, and digital platforms to help you limit unnecessary travel while enriching your learning experience.

This approach is, of course, supported by a policy aimed at minimizing the environmental impact of our IT infrastructure through resource sharing and energy efficiency.

Sustainable commuting

Public transport connections across the plateau and to nearby train stations are constantly improving. Mobility options with low environmental impact are encouraged through subscription-based electric bike stations located at the foot of the building, nearby, and at local train stations, as well as electric vehicle charging facilities available in our parking lot and surrounding areas. The school is actively involved in these ongoing efforts to enhance the public transport network on the plateau and to neighboring stations.

In December 2025, Télécom Paris was awarded the Sustainable Development and Social Responsibility (DD&RS) label for a two-year period. This certification recognizes and highlights the School's commitment to embedding the principles of social and environmental responsibility across all aspects of its activities, including education, research, and campus life.

PATRONAGE

Endowed Spaces

You will notice that many rooms, spaces, and seats in the main Thevenin amphitheater, are named after certain individuals. These are the names of those who have generously offered a donation to the school. Patronage, or endowment, is the act of showing appreciation for a financial donor (e.g. an individual, company, group of people, etc.) by placing their name on a space or piece of equipment. Endowment can be for a limited period of time or for life. In our building, we have offered patrons the choice to name a space for ten years or for life, depending on the amount given. The patron's name is written on a plaque at the entrance of the space or on the seat chosen by the donor. Donors are mainly alumni but also parents of students. It's a special way for them to show their appreciation for the school.

The act of honoring donors on campus property was first introduced in the United States in cultural and higher education institutions. In France, this practice is still quite recent and is mainly seen in stadiums and cultural spaces. Other leading engineering schools, such as Polytechnique and CentraleSupélec, have launched major patronage campaigns to cultivate their resources and foster the improvement of their schools. In this context, Télécom Paris has launched its own support and development campaign.

The funds raised through this patronage campaign are used to finance the school's four main pillars: social diversity - international initiatives - entrepreneurship - scientific excellence and innovation. Thanks to these donations, students receive scholarships for academic achievement, others can expand their academic horizons, talented professors are recruited, and equipment is financed. This is an exceptional opportunity for the school to prosper in the new ecosystem of the Institut Polytechnique de Paris.

Since 2014, this initiative has raised nearly €1 million.

Percent for Art

The term Percent for Art refers to a program where a percentage of the cost of large-scale development projects is dedicated to fund and install public art.

For our new building, the work of the visual artist Evariste Richer and his team was selected. **INFRAWIND & METACLOUD** is a dual-discourse work. The artist, born in 1969 in Montpellier, describes the creation as "Poetry" which exalts the architects' undertaking and the "Meteorological" map of the community spaces of the building.

The artist, born in 1969 in Montpellier, describes his work as follows:

The INFRAWIND & METACLOUD weather map, inspired by cloud patterns, the compass rose, and the interlocking filaments of feathers, or barbules, is spread throughout the entire site. Through this work, I have composed a new framework of architecture, revealing a changing climatic landscape intertwined with engineering and science.

Evariste Richer associates each floor with a shade of blue, giving way to isolated clouds on large enameled plates in the main lobby and wind roses to indicate the directions to the different spaces.

The furnishings, in a seventh shade of blue, complete the system. Tables, benches and stools, in the interlocking barbules, symbolize the breeze and accompany the movements of staff and students within the building.

PEDESTRIAN
ACCESS

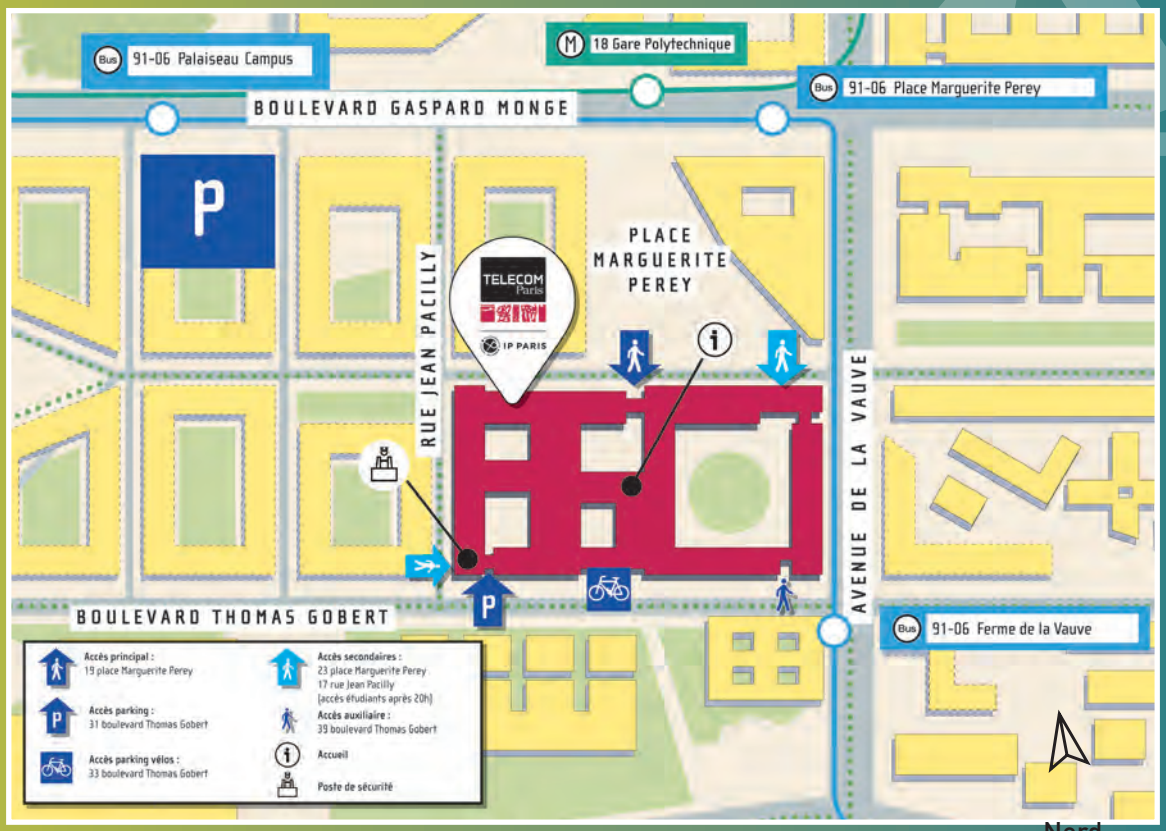

The school is located at 19 place Marguerite Perey in Palaiseau, 91120
GPS coordinates : 48.712793, 2.199441

Opening hours of the main reception desk: 7:00am to 8:00pm, Monday to Friday
Télécom Paris Reception Desk: 01 75 31 92 00
Building security: 01 75 31 40 17

The reception is located opposite the main entrance, at 19 Place Marguerite Perey.

Building access (with your badge) is also possible at:

- **23 place Marguerite Perey**
- **39 boulevard Thomas Gobert**
- **17 rue Jean Pacilly**

ACCESS

BY BIKE, PUBLIC TRANSPORT AND CAR

By bike

Bike paths (shown in green dotted lines on the map opposite) allow for safe travel on the Plateau de Saclay. They allow access to the Moulon District but also to the surrounding towns: Palaiseau, Orsay, Massy, Saclay, etc.

Moreover, a Zoov electric bicycle station is located at the base of our building. About twenty bicycles are available for use between the Camille Claudel district and the Quartier du Moulon.

Parking lots within the building (total capacity of 130 bikes) are accessible through the entrance located at:
• 33 boulevard Thomas Gobert

By public transport

> From the Massy-Palaiseau station RER B and RER C (15 minutes) - Exit: Gare routière Garnier
At the train station, go to the Gare routière Garnier exit and take the 91.06 or 91.10 bus. Get off at Ferme de la Vauve or Place Marguerite Perey.

> From the Lozère RER B station (25 minutes)
Pedestrian route of about 300 steps, a distance of 1.5 km.
Take the stairs towards the École Polytechnique and walk to the building.

> From the Guichet RER B station (20 minutes)
Pedestrian itinerary of 1.5 km.
Take the Passage du Buisson and cross the Carrière de la Troche to reach the Plateau.

> From Metro Line 18 station (opening in autumn 2026)
Get off at "Polytechnique" station, located directly opposite the building.

HOURS FOR BUS 46.06

The first bus leaves from the Massy-Palaiseau station at 6:00am.

Buses come about every 3 to 4 minutes during rush hour (6:56am – 10:00am and 4:00pm – 7:00pm).

Le Guichet station and Place Marguerite Perey branch: 10-minute journey.

The last bus travelling to the Massy-Palaiseau station leaves at 12:14am.

Outside rush hour times:

Buses come about every 15 minutes.

By car

The parking lot located in the basement of the school is reserved for staff members.
A second 420-space paid parking lot is accessible from boulevard Gaspard Monge and rue Jean Pacilly.

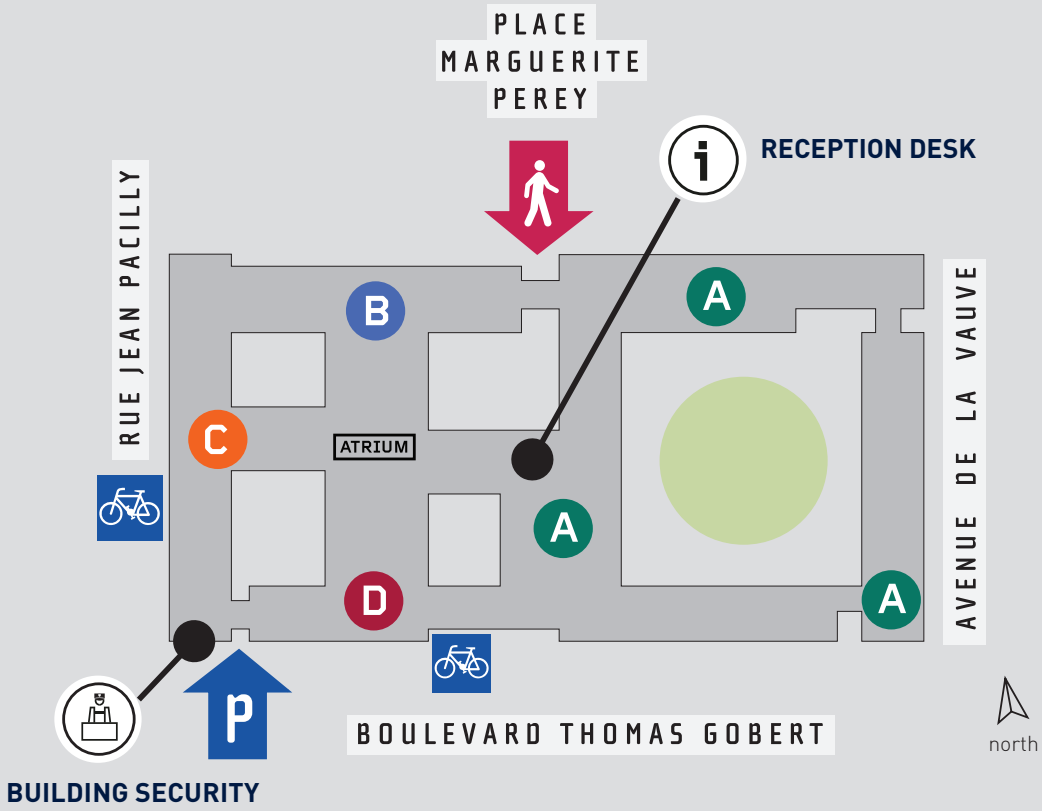

About 40 spaces are located around the school in a paid zone.
Consult ParkInSaclay (website and application) to find all the parking spaces near the school, as well as their availability in real time.

CAMPUS
GUIDE

Inside the atrium, the main lobby branches out into the communal, teaching, and research areas.

Telecom Paris is composed of four buildings, A, B, C and D, is five storeys high, and includes an underground basement level.

The main reception desk is located on the ground floor of Building A1, which leads into the atrium.

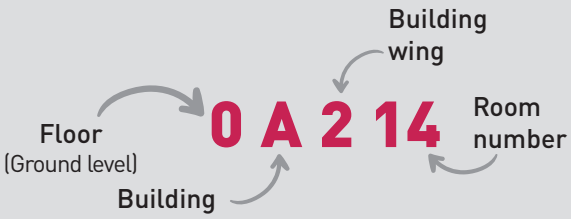

Office and room numbers are based on the following model:

For buildings B, C et D

For building A

Below is a list of the main departments and their location in the building:

Teaching and Research Departments	
Dean of Studies - Engineering students, IP Paris Master's and Mastère Spécialisé	2C19 to 2C24; 2C13 to 2C17 and 2C26 to 2C48
Communications & Electronics Department — COMELEC	3B, 3C and 3D
Admin COMELEC	3C22
Images, Data, Signal Department — IDS	5A101 to 5A109, 5B, 5C and 5D
IDS Labs	-1
Department of Computer Science and Networks — INFRES	4B, 4C and 4D
INFRES Labs	-1
Languages and Cultures Department & IP Paris ELEVATE Center	3A228 to 3A248
Economics & Social Sciences Department — SES	3A251 to 3A265, 3A3, 3A459 to 3A486
Research Department	3A433 to 3A437, 3A439, 3A445, 3A449, 3A451 to 3A454
Research and Pedagogy Training Studio	0B03
Executive Department & The President	5A401, 5A405 and 2D14
Chief of Staff	2C50
Human Resources Department	5A407 to 5A420
Secretary-General	5A402, 5A404 and 5A406
Secretary-General — Finance Department	2A329 to 2A344
Secretary-General — Building and Logistic Department	2A446 to 2A498
Support Services	
Social Diversity & Handicap Officer	2C56
Ecological Transition Officer	2C54
Communications Department	2C48 to 2C53

Telespoir Humanitarian Outreach Club	0A343

THE ÉCOLE POLYTECHNIQUE
DISTRICT

The new Shared Teaching Building (BEM), used by seven higher education and research institutions including École Polytechnique, was inaugurated on 19 December 2023 in the École Polytechnique district of Palaiseau on the Saclay Plateau.

CAMPUS DINING SERVICES

Facilities at your disposal.

THE WAN RESTAURANT

Collective dining services are provided by Elior.
The restaurant is entirely self-service and is located on the ground floor of the A4 building.
It serves up to 800 meals a day.
It has 280 seats, including seven for individuals with disabilities.
Its opening hours are from 11:30am to 1:45pm.

THE WEEKY CAFETERIA

restaurant, this dining facility seats up to 80 people and offers pastries, hot drinks, meals, and snacks. It's open every day from 8:00am to 4:00pm non-stop.

"THE WORKO" CAFETERIA

Located near the CRDN Library on the 2nd floor of Building A, this snack lounge seats up to 12 people and is open from 8:00am to 3:30pm.

CROUS RESTAURANTS

Access to CROUS restaurants is possible after creating your account on www.izly.fr
The nearest restaurant is located in the Alexandre Manceau residence (a 1 min walk from Télécom Paris).

DINING FACILITIES AT THE INSTITUT POLYTECHNIQUE DE PARIS

ÉCOLE POLYTECHNIQUE*

Le MAGNAN is an École polytechnique restaurant located about 15 minutes on foot from our building.
It is open from 11:30am to 2:00pm every day.
In the main lobby, a cafeteria also offers sandwiches, paninis, salads, coffee and other snacks.

ENSTA PARIS*

The "Cœur de blé" cafeteria is open from 8:00am to 5:30pm Monday to Thursday, and until 5:00pm on Friday. You can have a quick-service breakfast or lunch including sandwiches, salads, pies, quiches, paninis, hot dishes, and desserts.

ENSAE PARIS*

Located about a 10-minute walk from our building, ENSAE Paris has a cafeteria on the ground floor of the building. It is open from 8am to 3pm.

* To date, agreements are in development within the alliance of IP Paris. While they are being finalized, the meals purchased in these restaurants are at the "external rate".

BNP Paribas bank Paris Saclay branch

The Paris Saclay branch is open for your banking and transaction needs or to meet with a financial advisor. A cash machine is also available.

Open Monday to Friday from 10:00am to 6:00pm and until 7:00pm on Thursdays.
19 avenue de la Vauve
91120 Palaiseau

Moulon District

A bank, doctor's office, optician, driving school, and hairdresser are in the Moulon District, near the Serendicity Residence.

Bus 91.06, stop: Joliot Curie.

Camille Claudel District

Pharmacie des Écoles

This pharmacy offers a wide range of pharmaceutical products as well as on-loan medical equipment. The pharmacists can also provide medical and homeopathic advice.

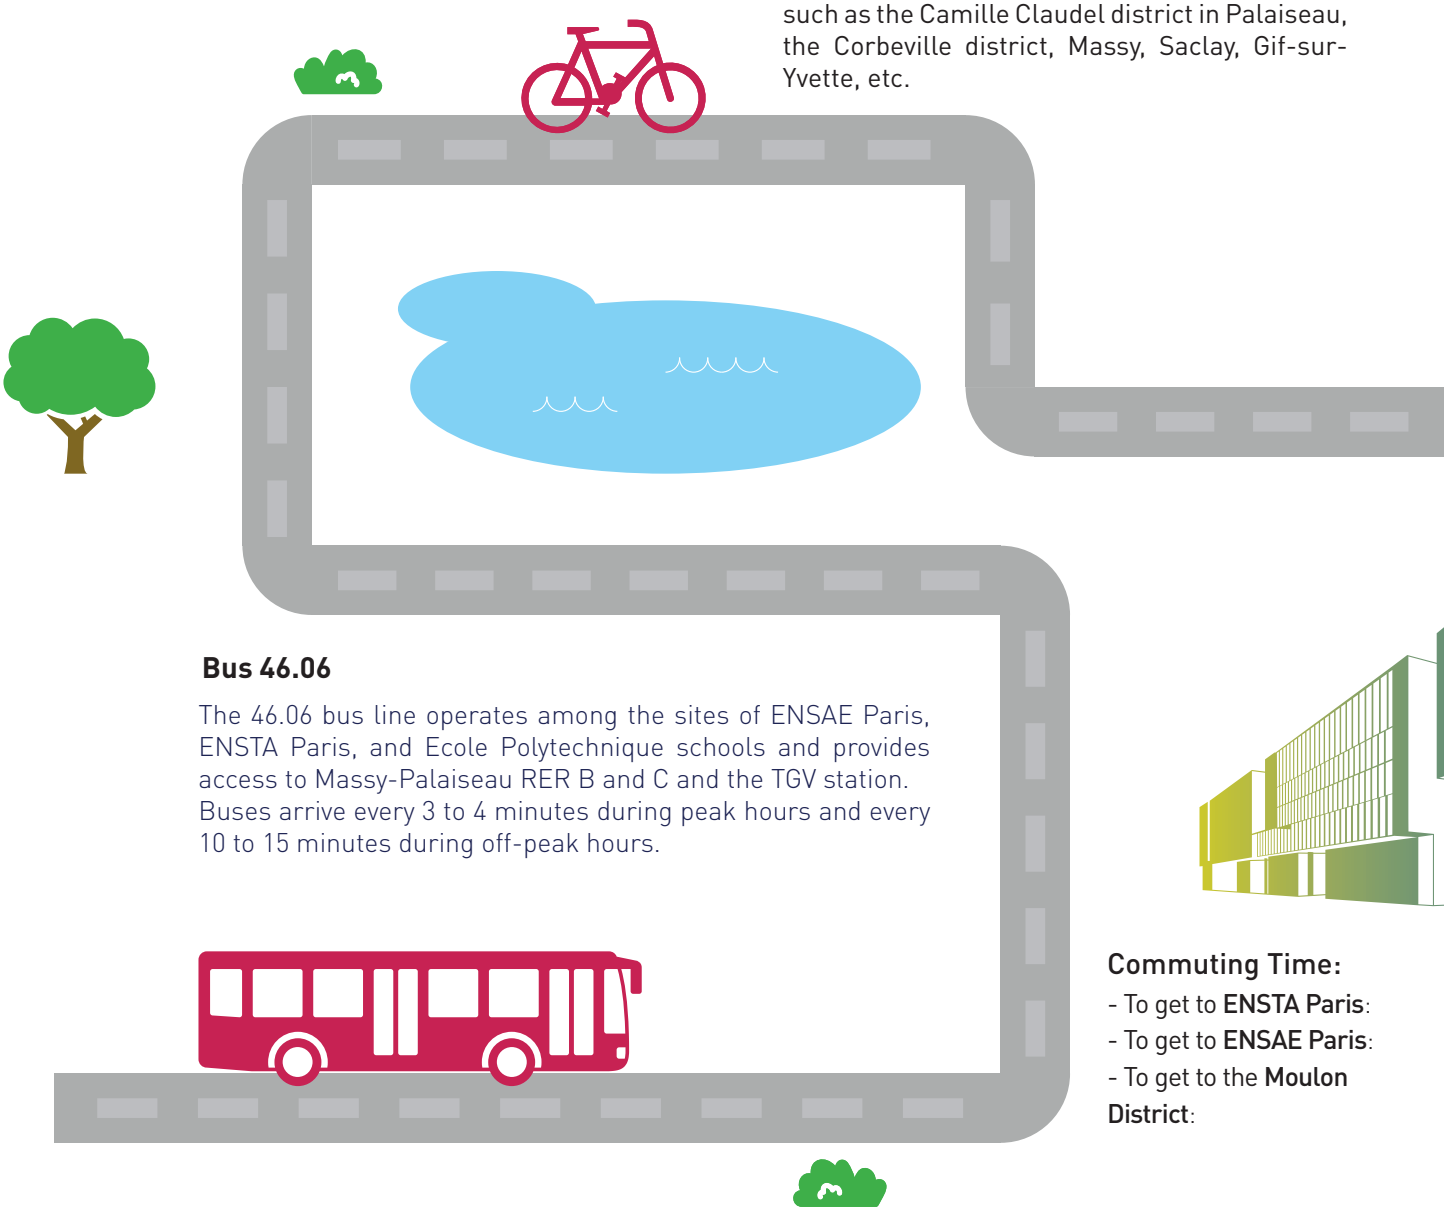

Open Mondays from 2:30pm to 8:00pm and Tuesday to Friday from 9:00am to 12:30pm and from 2:30pm – 8:00pm.
2 place des Causeuses
91120 Palaiseau

Bus 91.06, stop: Camille Claudel

GETTING AROUND

Bike paths

Seven kilometers of bike paths are available on the Plateau de Saclay.
They allow you to travel between the École Polytechnique and the Moulon district, but also to reach other districts and surrounding towns such as the Camille Claudel district in Palaiseau, the Corbeville district, Massy, Saclay, Gif-sur-Yvette, etc.

Bus 46.06

The 46.06 bus line operates among the sites of ENSAE Paris, ENSTA Paris, and Ecole Polytechnique schools and provides access to Massy-Palaiseau RER B and C and the TGV station.
Buses arrive every 3 to 4 minutes during peak hours and every 10 to 15 minutes during off-peak hours.

Commuting Time:

- To get to **ENSTA Paris**:
- To get to **ENSAE Paris**:
- To get to the **Moulon District**:

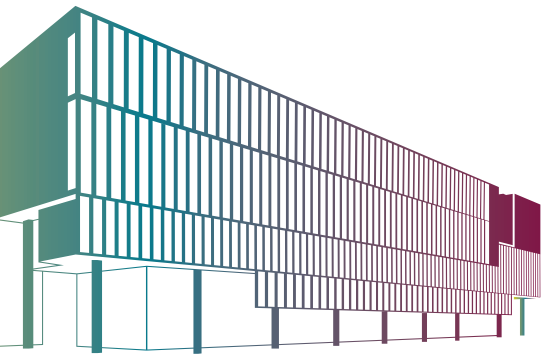

Le métro 18

Metro Line 18 will open in autumn 2026, with the new "Polytechnique" station located directly opposite the Télécom Paris building.

On foot

All around the school, many areas are now available to promote walking and pedestrian traffic.

A fitness path connects all the schools within the Institut Polytechnique de Paris.

20 minutes on foot / 5 minutes by bus / 7 minutes by bike
10 minutes on foot / 3 minutes by bike

about 6 minutes by bus / 15 minutes by bike
