

Chapter 8  
The Start UP  
&  
The Concours Scientifique  
...

Dr A decided he wanted to make sure that his invention was used by someone who **REALLY** understood it. And who could do that better than **HIMSELF?**

But Dr A was afraid he would miss his research & teaching activities ... what to do?

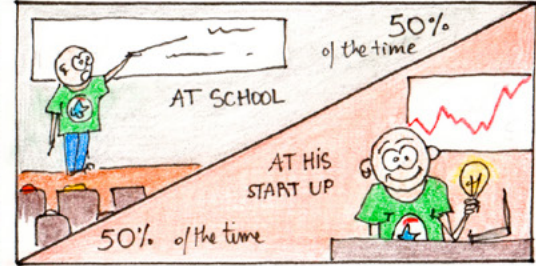

That was when he was introduced to the **CONCOURS SCIENTIFIQUE**, a way for him to BOTH create & work for his newly created start up, and continue his beloved Professor activities. Helped by the PIV, he became a Professor AND an entrepreneur.

A few conditions were set :

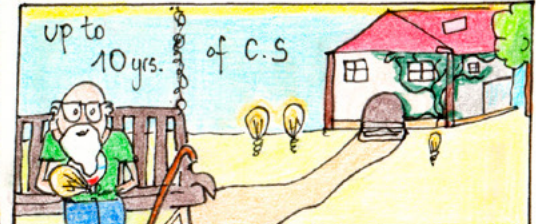

49% of Capital Shares  
MAX

= need to find an associate

SCHOOL & same status same salary

START-UP can be paid up to 73343 € /yr.

At the end of the C.S, Dr. A can choose to sell his shares of the company ... or leave the school.
