Enjeux industriels – Schlumberger

Schlumberger

Laurent BUTRÉ

Directeur du Lab IA, Schlumberger Traitement du langage et cybersécurité

🔀 IP PA<u>RIS</u>

NoRDF – Chaire Télécom Paris

Laurent Butré

AGENCE INNOVATION DÉFENSE

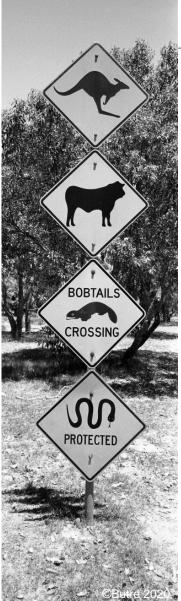

Schlumberger-Private

Desktop Support / VIP IT Support / Service Delivery Manager / Communication / Business System Portfolio Manager / Geomarket Manager / Desktop Services and Mobility Manager / Innovation Manager / Director AI Lab

The Values of Schlumberger

- Our people thrive on the challenge to excel in any environment. Their dedication to safety and customer service is our greatest strength
- Our commitment to technology and quality is the basis of our competitive advantage
- Our determination to produce superior profits is the cornerstone of our future independence of action and growth

What We Do

Leading provider of technology to the energy industry

Well Construction

- Bits & Drilling Tools
- Directional Drilling
- Logging-While-Drilling
- Surface Logging
- Drilling Fluids
- Solids Control
- Cementing
- Land Rigs

Production Delivery

- Production Systems
- Process Systems
- Valves & Measurement
- Chemicals & Treatment
- Production Management

Reservoir Production

- Pressure Pumping
- Completions
- Artificial Lift
- Subsea Production Systems
- Well Intervention

Reservoir Characterization

- Seismic Services
- Wireline
- Well Testing
- Software
- Petro-technical Expert Services

Technology Domain Knowledge

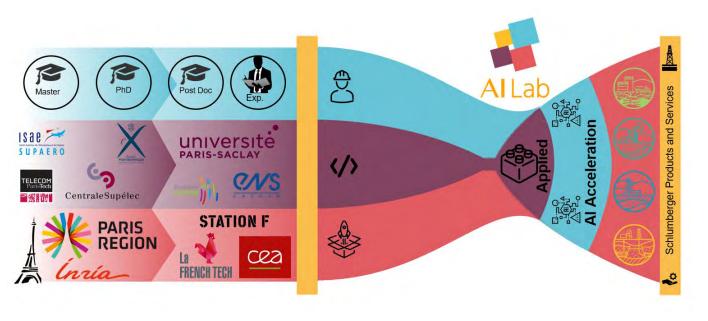

Communities of Practice

- Over 30,000 members
- Over 10,000 publications in the past decade
- 2019 Excellence in Knowledge Management Award

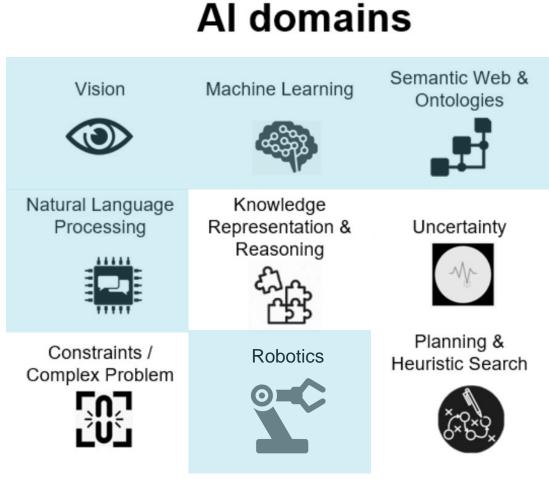

Source: Award from American Productivity & Quality Center

Schlumberger Embedded AI Lab

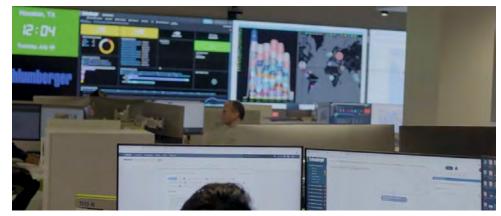

- Team of 17
- 50% PhD & PostDoc
- 50% Gender Balance

Cyber Security Feeds and NLP Challenge

Schlumberger Cyber Security Operation Center

- It is not only about IOC (Indication of Compromise)
- It is News feeds & Dark web feeds monitoring

Challenges : Volume and Truth

- How to deduplicate topics from feeds
- How to surface long tail
- How to validate information (Fake information)

ML & AI is critical at a SOC level

Assist, Accelerate, Automate
